

HAZARD CONTROL TECHNOLOGIES, INC.

FIRE, VAPOR, AND CONTAMINATION CONTROL SOLUTIONS

F-500 EA Mobile Trailers

F-500 Encapsulator Agent Mobile Trailers are custom-designed to provide rapid response and considerable fire suppression power to specific customer applications. The self-contained trailers have F-500 EA pre-mix tanks, onboard pressure pumps and the necessary hardware for a given emergency. Once the trailer arrives at the scene, start the pump and begin fighting the fire. F-500 EA trailers are usually stored near high hazard areas for faster response. An optional monitor with remote operation can be mounted on the front of the trailer or 1 1/2" hand lines can be used from the manifold.

- 300-500-gallon F-500 EA pre-mix tanks
- Provides 5 minutes of suppression time at 95 gpm
- Quickly moved around site by pick-up truck or forklift
- Refillable during operation for continuous suppression
- Effective on Class A, B and D fires
- Streaming distance is 100 feet
