

IF FIREFIGHTING IS YOUR BUSINESS DO IT SAFER WITH F-500 EA

F-500 is in a class by itself for fire, vapor, and contamination control. In addition to its superior effectiveness and efficiency, it is also environmentally safe, non-toxic, non-corrosive and 100% biodegradable. F-500 EA has a 15-year shelf life, and you proportion it with your existing equipment or by pouring it into your booster tanks.

F-500 is cULus listed for Class A and Class B fire applications. Additionally, F-500 has been used in the field and found to be effective on Class D fires.

F-500 EA is a Micelle Encapsulator combined with a wetting agent in one product. This micelle formation allows F-500 to combat deep-seated fires and control hazardous spills and vapors.

You will experience many LIFE SAFETY benefits when utilizing F-500:

- **Quick Knockdown** – 4 to 5 times faster than water
- **Rapid Heat Reduction** – At 0.5%, F-500 EA cools 6x faster than plain water
- **Hazardous Spill Control** – Renders flammable liquids non-flammable when applied at the proper ratio
- **Smoke Reduction** – Reduces smoke, increasing visibility and safety for firefighters

F-500 EA REQUIRES NO SPECIALIZED EQUIPMENT, MAKING IT THE CLEAR CHOICE FOR FIRE AND HAZ-MAT CONTROL.

F-500 EA is economical to use and is typically applied at 1.0% solution for many applications.

F-500 EA has been added to the US EPA NCP (National Contingency Plan) Product Schedule as a surface washing agent.¹

¹F-500 EA is on the U.S. Environmental Protection Agency's NCP Product Schedule. This listing does NOT mean that EPA approves, recommends, licenses, certifies, or authorizes the use of F-500 EA on an oil discharge. This listing means only that data have been submitted to EPA as required by Subpart J of the National Contingency Plan, 40 CFR Section 300.915.
